

BURGHFIELD BLOCK PRINTING WORKSHOP SUMMER/AUTUMN 26

Hello Everyone

Q3 is with us, even though it still feels like Summer.

Here are 2 photos that sum up the VERY hot summer of 2026 for me.

The first is sunrise over Salwarpe (near Droitwich). I was on holiday visiting my daughter, and it was a scorching week.

The second is Lexii in Kos, wearing a beach cover-up that I printed for her. All I can think of when I look back on summer 2026 are sunny days, every day, and my poor garden wilting. I am old enough to remember the summer of 1976 clearly. Somehow, the endless hot weather seemed like more fun as a child!
